

TERM 2

OFFLINE SCIENCE ASSIGNMENT IDEAS

STAGE 2 AND 3

Work through these Science Assignments. You can complete as many as you want to.

[Make a String Phone](#)

Use paper cups to make a string phone and talk with friends while learning about sound waves with this cool science project for kids.

[Egg Drop](#)

Design and build something that can safely protect an egg from smashing all over the ground with this fun egg drop project for kids

[Make a Robot](#)

Try a fun robot building project. Make a robot from household parts or take it a step further with real robotic equipment and challenges

[Make a Rain Gauge](#)

Just how heavy was that rain shower? Let's find out by making a rain gauge that measures how much rain falls over a certain time.

[Ice Cube Experiment](#)

Do coloured ice cubes melt at the same rate as clear ice cubes? Add food colouring to an ice cube tray and compare how long the coloured cubes take to melt compared to the regular ones.

[Crayon Experiment](#)

Do all crayon colours last the same? Draw a really long line with one colour, then draw the same length of line with another colour. Are both crayons the same length?
